Appendix F Bidder Registration Form

With this form, Bidders may register up to ten (10) separate stations and twenty-five (25) proposals by completing the information designated below. Please note that each proposal must be tied to and designated from a single generating unit. **Bidder MUST register all generating units and proposals no later than November 16, 2007 at 5:00 p.m. CPT. Failure to register a proposal in accordance with Subsection 4.10 of the RFP and this Bidder Registration Form will preclude Bidder from submitting a proposal.**

Bidders are strongly encouraged to submit their registration forms well in advance of the deadline (November 16, 2007 at 5:00 p.m. CPT) to provide adequate time to correct any errors which may be identified by Cleco Power in the electronic registration process. Bidders shall bear the risk of failing to submit an acceptable registration form within the specified deadline. Bidders who submit their registration form within two hours of the specified deadline shall bear a substantial risk that, in the event of an error in their submission or a technical malfunction, they may not have enough time before the deadline to correct and resubmit an acceptable form. Cleco Power shall be under no obligation to Bidders to accept any improperly completed registration forms.

For each registered proposal, Bidder will receive a Proposal Identification Number. This number will specifically identify Bidder proposals throughout the evaluation process and serve as a safeguard against divulging unnecessary Bidder information to the evaluation teams. Upon receipt of the executed Bidder Registration Form, Cleco Power will invoice Bidder, by Proposal Identification Number, the Proposal Submittal Fee that is due for each registered proposal. Bidders will be invoiced a \$5,000.00 Proposal Submittal Fee for the first registered proposal from a generating station and \$1,500.00 for each additional registered proposal from that same generating station. Cleco Power must receive the Proposal Submittal Fee for each registered proposal no later than 5:00 p.m. CPT on November 30, 2007. Failure to submit the Proposal Submittal Fee(s) by this deadline will cause the registered proposal(s) to be rejected as non-conforming and Bidder shall not be permitted to submit a Proposal Submission Form for such registered proposal(s).

Below is an example of the Proposal Submittal Fee structure:

Bidder A registers Station X and registers three (3) proposals sourced from Station X. Bidder A also registers Station Y and submits two proposals sourced from Station Y. Based upon the stations and proposals registered by Bidder A, that Bidder will receive five invoices:

Invoice 1: \$5,000.00 for Station X, Proposal 1

Invoice 2: \$1,500.00 for Station X, Proposal 2

Invoice 3: \$1,500.00 for Station X, Proposal 3

Invoice 4: \$5,000.00 for Station Y, Proposal 1

Invoice 5: \$1,500.00 for Station Y, Proposal 2
