

**GENERAL SERVICE**

**(1) AVAILABILITY**

Service under this schedule is available at any point of the Company's electric system where facilities of adequate capacity and suitable phase and voltage are adjacent to the premises to be served.

**(2) APPLICATION**

This schedule is applicable to service furnished for all **general lighting and power** purposes. Service will be supplied at one point of delivery, measured through one meter or metering installation, and shall not be shared or resold.

At the Company's option, customers receiving service at a secondary supply voltage and whose transformer capacity exceeds 300 KVA, may be required to contract for service under terms of the Company's standard Agreement for Electric Service.

Customers receiving service at a primary supply voltage shall contract for service under terms of the Company's standard Agreement for Electric Service.

**(3) TYPE OF SERVICE**

**Single-phase or three-phase alternating current** at any one standard voltage. Voltage and phase shall be at the option of the Company.

**(4) NET MONTHLY RATE**

	<u>Secondary Supply Voltage</u>		<u>Primary</u>
	<u>No Demand</u>	<u>Demand</u>	<u>Supply</u>
	<u>Meter</u>	<u>Meter</u>	<u>Voltage</u>
<b>(a) Customer Charge of</b>	<b>\$10.00</b>	<b>\$20.00</b>	<b>\$100.00</b>
<b>(b) Plus Demand Charge per kW of</b>	*	<b>\$7.50</b>	<b>\$7.35</b>
<b>(c) Plus Energy Charge per kWh of</b>	<b>\$.05032</b>	<b>\$.00789</b>	<b>\$.00682</b>
<b>(d) Plus Reactive Demand Charge per RkVA of</b>	**	<b>\$0.40</b>	<b>\$0.40</b>
<b>(e) Plus Fuel Cost Adjustment</b> as determined under Adjustment Clause FA			
<b>(f) Plus Supply Cost Adjustment</b> as determined under Adjustment Clause SA.			
<b>(g) Plus Storm Restoration Cost Adjustment</b> as determined under Adjustment Clause SRCA.			
<b>(h) Plus Storm Cost Surcredit Adjustment</b> as determined under Adjustment Clause SCSA.			
<b>(i) Plus Facilities Charge</b>			
<b>(j) Plus 50% of the applicable FRANCHISE FEE</b> for electric service within the incorporated limits of a City which assesses a municipal franchise fee as per LPSC Order No. R-27859. Such portions of the municipal franchise fee shall be added to and separately stated on the monthly electric bill for each applicable Customer located within the incorporated limits of that City.			
<b>(k) Plus the proportionate part of any new tax or increased rate of tax</b> , or governmental imposition (except state, parish, city and special district ad valorem taxes and any income taxes) levied or assessed against the Company or upon its electric business, as the result of any new or amended laws that may become effective and operative after <b>January 1, 1986</b> .			

\* When a customer has exceeded 5,000 kWh per month for three consecutive months, a demand meter will be installed. Should usage for each of any twelve months ended December 31 not exceed 5,000 kWh, the Customer will be given the opportunity to return to the energy only rate upon payment in full of the cost of removal of the demand metering facilities.

\*\* Reactive demand not applicable.

**GENERAL SERVICE**  
(Continued)**(5) DEMAND**

For normal loads the Demand shall be the highest amount determined in accordance with any of the following provisions:

- (a) The highest 15 minute peak kW load, adjusted to the nearest whole kW, measured during the current month.
- (b) 100% of the highest demand similarly established during the preceding eleven months, excluding the months of January, February, March, April, May, October, November and December.
- (c) 50% of the Contract Power specified in the Agreement for Electric Service.

**(6) FACILITIES CHARGE**

The Facilities Charge shall be agreed upon between the Company and the Customer based on the cost of the facilities and the anticipated annual charges required. Such agreement shall be in writing and made a part of the electric service agreement.

**(7) REACTIVE DEMAND**

Reactive kilovolt ampere (RkVA) load may be measured and whenever found to exceed 48% of the measured kW load, the Reactive Demand Charge shall be \$0.40 per RkVA of such excess. RkVA may be determined by multiplying the kW load by the ratio of reactive kilovolt ampere hours (RkVAh) to the kilowatt hours (kWh) for the current month.

The Company may, at its option, meter kilovolt amperes (kVA) for those customers whose RkVA demand consistently exceeds 48% of measured kW demand. For such customers, the billing demand for part (b) above will be 90% of the highest average 15 minute peak kVA load. No additional Reactive Demand Charges will apply to these customers.

**(8) METERING**

When service is delivered at primary voltage, service may be metered at customer's utilization voltage with compensation for transformer losses. Compensation shall be based on the operating characteristics of the transformer serving the customer.

**(9) MINIMUM MONTHLY CHARGE**

The Customer Charge **plus** any applicable Demand Charge **plus** any applicable Facilities Charge **plus** any applicable Supply Adjustment **plus** any applicable Storm Restoration Cost Adjustment **plus** applicable Storm Cost Surcredit Adjustment **plus** any applicable Franchise Fee, but not less than the minimum charge specified in the Agreement for Electric Service.

**(10) SERVICE PERIOD**

As specified in the Agreement for Electric Service, but not less than one year.

**(11) PAYMENT**

Bills for service furnished hereunder shall be rendered Net and Gross. The Net Bill is due when rendered and if not paid within 20 days the Gross Bill becomes due. The Gross Bill is the Net Bill plus 5% of the first \$1,000.00 and 2% of any amount greater than \$1,000.00.

**GENERAL SERVICE**  
(Continued)

(12) **TERMS AND CONDITIONS**

Service under this schedule is subject to the Company's Standard Terms and Conditions for Electric Service and to all applicable rider schedules and adjustment clauses.

**EFFECTIVE: 3/07/2008**

**Supersedes: GS (11/1/2007)**
