

**CLECO POWER LLC
TRANSMISSION FUNCTION EMPLOYEES
AS OF MARCH 23, 2012**

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
Ardoin, Clay	System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1291	Monitors and maintains real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting
Ardoin, Kent	Lead Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5751	Performs scheduling and coordination of the Apparatus specialists in the specialized activities
Armand, Toby	System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1291	Monitors and maintains real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting
Badeaux, Bret	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Donald Sarkies	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work.
Boudreaux, Chad	Lead Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5751	Performs scheduling and coordination of the Apparatus specialists in the specialized activities
Boutte, Ricky	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Brassette, Jeffrey	Sr System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1290	Supervises and monitors real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting records
Breaux, Danny	Sr Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5691	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, carrier relaying controls and substatio
Brister, James	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	Responsible for the most economical and reliable operation of Cleco Power generation assets.
Broussard, Becky	Assoc Dist Oper Ctrl Operator	Cleco Power LLC	Transmission	Roger Deville	5504	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Butler III, Carl	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Butterfield, Rita	Sr Engineering Assistant	Cleco Power LLC	Transmission	Steven Gauthier	2514	Assists engineering department personnel in performing various technical and non-technical functions such as material acquisition contract preparation, construction bid document preparation, analysis of project material requirements and CADD drawing prepa
Carbon, David	Lead Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5690	Performs scheduling and coordination of the ESS in the specialized activities involving the installation, programming and checkout of Scada systems, fault/disturbance recorders, and advanced protective relaying systems.
Case, Ryan	Sr Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5691	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, carrier relaying controls and substatio
Cassels, Herman	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Maurice Paulk	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work.
Chester, Charles	Lead Engineer	Cleco Power LLC	Transmission	Steven Gauthier	2499	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.

**CLECO POWER LLC
TRANSMISSION FUNCTION EMPLOYEES
AS OF MARCH 23, 2012**

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
Clancy, Jamie	Sr Engineer	Cleco Power LLC	Transmission	Dean Sikes	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Clarius Jr, John	Lead Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5751	Performs scheduling and coordination of the Apparatus specialists in the specialized activities
Cullen, Angela	Sr Operations Business Spectst	Cleco Power LLC	Transmission	Justin Hilton	4830	Performs all necessary back-office energy accounting and billing functions for Transmission Operations.
Damewood, Michael	Lead Elec System Technician	Cleco Power LLC	Transmission	Maurice Paulk	5686	Provides technical direction and support for all Electric System Technicians.
David, Richard	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
delaHoussaye, Denis	Sr Engineer	Cleco Power LLC	Transmission	Dean Sikes	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
DesHotels, Kyle	Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5753	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of power equipment.
Deville, Roger	Spvr-DOC Operations	Cleco Power LLC	Transmission	James Jenkins	1705	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures. Responsible for dispatching/scheduling same day trouble and service orders. Provides status updates to customer call center. Performs any/all DOC operations activities as required, delivering quality services in order to ensure internal and external satisfaction.
Dickens, Clinton	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Doucet, Ricky	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Dubea, Gregory	Sr System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1290	Supervises and monitors real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting records
Ducote, Chris	Sr Drafter	Cleco Power LLC	Transmission	Madeline Norris	3412	Performs mechanical and/or computer aided drafting and design (CADD) Responsible for ensuring that the transmission operations, transmission planning, and EMS support functions are maintained and operated in a reliable, safe manner.
Duffey, Lisa	Mgr-Transmission Operations	Cleco Power LLC	Transmission	Justin Hilton	1280	Performs highly specialized engineering, performance evaluation, application and maintenance analysis of all transmission, generation, distribution power equipment, controls, relaying and metering so as to provide an economical and reliable system.
Dupuis, Miles	Principal Engineer	Cleco Power LLC	Transmission	Dean Sikes	2500	Participates with Customer Services, Customer Revenue, and Regional Office staff in problem determination and resolution of field completed FSS
Fabre, Kathy	Sr Dist Oper Cntrl (DOC) Spec	Cleco Power LLC	Transmission	Roger Deville	5505	Service Orders and Work Orders
Frederick II, Leo	Lead Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5690	Performs scheduling and coordination of the ESS in the specialized activities involving the installation, programming and checkout of Scada systems, fault/disturbance recorders, and advanced protective relaying systems.
Galiano III, Trey	Sr Elec System Technician	Cleco Power LLC	Transmission	Donald Sarkies	5687	Provides technical direction and support for all Electric System Technicians.

**CLECO POWER LLC
TRANSMISSION FUNCTION EMPLOYEES
AS OF MARCH 23, 2012**

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
Gauthier, Steven G	Mgr-Trans Design & Constr	Cleco Power LLC	Transmission	Joel Prevost	1284	Manages the design and construction of transmission lines and substations. Monitors and maintains real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting
Gray, Ian	System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1291	
Guillory II, Andre	Engineer	Cleco Power LLC	Transmission	Dean Sikes	2503	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Guillotte, Brian	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Donald Sarkies	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work. Responsible for identifying, evaluating, and resolving transmission issues and affecting transmission policy development
Guillot, Cynthia	Dir-Trans Policy & Contracts	Cleco Power LLC	Transmission	Justin Hilton	1313	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, carrier relaying controls and substatio
Gurganus, Jay	Sr Elec System Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5691	
Guyote, Paul	Sr Elec System Technician	Cleco Power LLC	Transmission	Donald Sarkies	5687	Provides technical direction and support for all Electric System Technicians.
Halbrook, Walter	Lead Engineer	Cleco Power LLC	Transmission	Steven Gauthier	2499	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Hancock, Jared	Sr Engineer	Cleco Power LLC	Transmission	Terry Whitmore	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection. Manages and directs the Energy Operations line of business to ensure reliable and sufficient delivery of natural gas, fuel oil, purchase power and native generation to Cleco Power's retail and grandfathered wholesale customers.
Harper, Bryan	Mgr-Retail Energy Operations	Cleco Power LLC	Transmission	William Johnson	1545	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, carrier relaying controls and substatio
Hebert, Louis	Sr Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5691	Performs scheduling and coordination of the Apparatus specialists in the specialized activities
Hebert, Matthew	Lead Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5751	
Hebert, Vic	Dir-Dispatch Control	Cleco Power LLC	Transmission	Danny McDaniel	1279	Takes lead technical role in directing real-time transmission and control area operations ensuring the daily Transmission operating plan is performed.
Hilton, Michael	Lead Engineer	Cleco Power LLC	Transmission	Dean Sikes	2499	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Hilton, Shane	Gen Mgr-Transmission Strategy	Cleco Power LLC	Transmission	Keith Crump	70	Provides the overall management of the Transmission System.
Hines, John	Drafter	Cleco Power LLC	Transmission	Steven Gauthier	3413	Prepares drawings to be used for land rights acquisitions.
Holts, Russell	Sr Elec System Technician	Cleco Power LLC	Transmission	Maurice Paulk	5687	Provides technical direction and support for all Electric System Technicians.

**CLECO POWER LLC
TRANSMISSION FUNCTION EMPLOYEES
AS OF MARCH 23, 2012**

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
Huval, Gerald	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Hyde, Brian	Lead Engineer	Cleco Power LLC	Transmission	Steven Gauthier	2499	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Jenkins, Blake	Engineer	Cleco Power LLC	Transmission	Steven Gauthier	2503	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Johnston, Mark	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Jones, Jamal	Sr Engineer	Cleco Power LLC	Transmission	Terry Whitmore	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection. Supervises and monitors real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system
Laborde Jr, Marc	Sr System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1290	accounting records
Lamartiniere, George	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	Responsible for the most economical and reliable operation of Cleco Power generation assets.
Lambright, Terry	Engineering Assistant	Cleco Power LLC	Transmission	Maurice Paulk	2517	Assists department engineers by performing various technical and non-technical functions to ensure products and services meet or exceed Cleco standards
Lanclos, Corey	Sr Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5691	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, carrier relaying controls and substatio
Lanclos, Derek	Electric System Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5692	Performs specialized and complex activities involving the installation, programming and checkout of scada systems, fault / disturbance recorders, advanced protective relaying systems, programmable logic controllers, and carrier relaying controls.
LeBlanc, Keith	Lead Elec System Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5690	Performs scheduling and coordination of the ESS in the specialized activities involving the installation, programming and checkout of Scada systems, fault/disturbance recorders, and advanced protective relaying systems.
Lemoine Jr, Quincy	Lead Energy Control Specialist	Cleco Power LLC	Transmission	Terry Whitmore	3661	Coordinates, directs, and performs testing, installation, repair, and adjustments to all computer equipment and auxiliary system equipment at CTOC.
Malone, Shelley	Sr Admin Support Specialist	Cleco Power LLC	Transmission	Madeline Norris	4415	Administrative support.
Marcotte, Clint	System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1291	Monitors and maintains real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting
Mays, Tasha	Energy Operations Coordinator	Cleco Power LLC	Transmission	Bryan Harper	1548	Responsible for system power purchasing needs in the next day out to next month markets around Cleco Power's generation assets and native load.
McDaniel, Danny	Spvr-Trans Control Operations	Cleco Power LLC	Transmission	Lisa Duffey	1277	Manages the real-time and daily transmission and control area operation ensuring appropriate transmission access, scheduling, maintenance, and accounting,

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
McWilliams Jr, Hugh	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Michiels, Robby	Sr Engineer	Cleco Power LLC	Transmission	Terry Whitmore	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Migues, Chase	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Miller, Phillip	Engineer	Cleco Power LLC	Transmission	Terry Whitmore	2503	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Moffett, Brandon	Lead Engineer	Cleco Power LLC	Transmission	Dean Sikes	2499	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Morgan, Scott	Sr Engineer	Cleco Power LLC	Transmission	Dean Sikes	2502	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Naquin, Donald	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Donald Sarkies	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work. Independently manages the right of way re-clearing, tower aviation lighting maintenance, environmental compliance program, and wildlife enhancement programs for all transmission lines.
Nolen, Jerry	Trans Facil Mtce Admin	Cleco Power LLC	Transmission	John Melancon	2524	
Nugent, Brandon	Engineer	Cleco Power LLC	Transmission	Dean Sikes	2503	Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection. Manage and coach specialists as needed to perform the highly technical activities associated with the installation, maintenance, and troubleshooting of all apparatus, protective relaying, and metering equipment in distribution substations
Paulk, Marty	Mgr-Electrical System Maint	Cleco Power LLC	Transmission	James Lass	1283	
Polk Jr, Russell	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Donald Sarkies	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work.
Prevost, Mark	Gen Mgr-T&D Engineer & Constr	Cleco Power LLC	Transmission	William Fontenot	71	Develops the short and long term planning and protection requirements for the company's transmission and distribution assets.
Queen, Chris	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	Responsible for the most economical and reliable operation of Cleco Power generation assets.
Rasch, Bill	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	Responsible for the most economical and reliable operation of Cleco Power generation assets.
Reed, Brian	Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5753	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of power equipment.

**CLECO POWER LLC
TRANSMISSION FUNCTION EMPLOYEES
AS OF MARCH 23, 2012**

Name	Job Title	Company	FERC Group	Supervisor	Job Code	Position Description
						Creates, updates, and maintains SCADA displays on Energy Management System for Transmission Operations and Distribution Operations Center. Coordinates database point assignments with Transmission Services personnel for transmission as well as distribution. Performs complete point to point checkout of all RTU configuration with field engineers to ensure mapping of EMS database with field point assignments, ensures security of system data, and efficiently analyzes system problems and quickly takes appropriate action.
Reed, Carla	Sr EMS Technician	Cleco Power LLC	Transmission	Terry Whitmore	3675	
Reed, Robert	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Regard, Steven	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	Responsible for the most economical and reliable operation of Cleco Power generation assets.
Robichaux, Mark	Lead Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5751	Performs scheduling and coordination of the Apparatus specialists in the specialized activities
Romero Jr, Glenn	Sr Elec System Technician	Cleco Power LLC	Transmission	Donald Sarkies	5687	Provides technical direction and support for all Electric System Technicians. Responsible for the most economical and reliable operation of Cleco Power generation assets.
Ross, Donald	Sr Resource Coordinator	Cleco Power LLC	Transmission	Talmadge Walker	1318	
Salay, Steve	Sr Drafter	Cleco Power LLC	Transmission	Steven Gauthier	3412	Performs mechanical and/or computer aided drafting and design (CADD)
						Performs scheduling and coordination of the ESS in the specialized activities involving the installation, programming and checkout of Scada systems, fault/disturbance recorders, and advanced protective relaying systems.
Sandifer, Philip	Lead Elec System Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5690	Supervises and monitors real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting records
Schexnider, Sean	Sr System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1290	Dispatches routine and emergency switching, maintains switching maps, and documents all switching procedures.
Scott, Jarrell	Sr Dist Oper Control Operator	Cleco Power LLC	Transmission	Roger Deville	5502	Supervises and monitors real-time operations of the bulk power system; performs switching safely and maintains accurate transmission system accounting records
Scroggs, Bradley	Sr System Operator	Cleco Power LLC	Transmission	Danny McDaniel	1290	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Segura, Chad	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5752	Manages the planning, selection, standards, criteria, setting, system performance evaluation, and design of transmission relaying and controls, generation relaying, and selected distribution relaying.
Sikes, Dean	Mgr-Trans Prot, Appr & Mtg	Cleco Power LLC	Transmission	Joel Prevost	1310	
Simmons, Keith	Sr Apparatus Repairer	Cleco Power LLC	Transmission	Maurice Paulk	8012	Performs all testing, maintenance and repair of distribution reclosers and regulators and will occasionally assist apparatus specialists in field work.
Simmons, Ray	Sr Elec System Technician	Cleco Power LLC	Transmission	Donald Sarkies	5687	Provides technical direction and support for all Electric System Technicians.
						Performs highly specialized engineering, design, performance evaluation, installation and maintenance of transmission, generation and/or selected distribution relaying to provide economical and reliable system protection.
Simms, James	Lead Engineer	Cleco Power LLC	Transmission	Terry Whitmore	2499	
Simon, Keith	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Donald Sarkies	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
Smith, Gerald	Sr Apparatus Specialist	Cleco Power LLC	Transmission	Maurice Paulk	5752	Performs and coordinates specialized activities associated with the testing, installation, maintenance, repair and calibration of equipment
