

**Cleco Power LLC – Dolet Hills Power Station  
Notice of Intent to Close Bottom Ash Ponds  
Dolet Hills, Louisiana**

In compliance with Title 40 of the Code of Federal Regulations (CFR) Section 257.102(g), Cleco Power LLC has prepared this notification of intent to close the two Bottom Ash Ponds at the Dolet Hills Power Station located near Mansfield, Louisiana. The two bottom ash ponds received the last known waste placement on September 1, 2022 and in accordance with 40 CFR 257.102(e)(1), closure must commence no later than 30 days after that date. Cleco is closing the bottom ash ponds in accordance with the Closure Plan developed under 40 CFR 257.102(b) and (c).

The closure design was prepared in accordance with 40 CFR 257.102(c) and precludes future impoundment of water, sediment and slurry, minimizes the need for further maintenance of the CCR unit and is consistent with recognized and generally accepted good engineering practices. I certify, as a Professional Engineer in the State of Louisiana, that the closure by removal for the bottom ash ponds at the Cleco Dolet Hills Power Station is designed in accordance with 40 CFR 257.102(b) and (c) and the Closure Plan.
