

A Complete Permit Application **must include** the following:

Document Requirements Overlash and New Pole Attachment Applications

- Appropriate application filled in correctly.
- KMZ File of route from starting pole to ending pole (where construction will start to where construction will end).
- Excel file (in Must be in CSV, XLS, or XLSX file format only) – with requested poles numbered from the first to last pole in the route with their corresponding GPS coordinates in decimal degrees.
- Equipment specifications for all new equipment to be attached, and if an overlashing notification, then the currently attaching company owned equipment specifications must be included as well.
- Provide with your application your designed height of all permitting crossings such as railroad, state highway, major waterway etc. Along with a copy of your permits for such crossings.
